2/28/2023

Hello NFDL Families,

We wanted to give you a quick update on the status of our School-based COVID testing site. As of March 3, 2023, we will no longer have a COVID testing site at Friendship Learning Center. We continue to offer free COVID rapid tests to anyone that would like some. We have a large supply available at each of our School offices. The Fond du Lac County Fairgrounds also continues to have PCR testing on Monday, Tuesday, Thursday and Fridays from 8am-4:30 pm. Walgreens also has testing available by appointment.

You can also order every month 10 free COVID rapid tests online. This is funded by the Wisconsin Department of Health Services. The website is: <https://www.sayyescovidhometest.org>

As a reminder when using antigen (rapid) COVID tests:

- Anyone experiencing symptoms of COVID-19, should take a test immediately.
- Everyone, regardless of vaccination status, should take a COVID19 test five days after being exposed to someone with COVID-19.
- If you test negative with any at-home COVID-19 antigen (rapid) test, take multiple tests over 2-3 days.

Sincerely,

School District of North Fond du Lac
